## About the seminar

India's vision of *Vikasit Bharat 2047* calls for transformative growth driven by innovation, sustainability, and scientific excellence. Emerging trends in science and technology—especially in life sciences—are playing a pivotal role in addressing national priorities such as health security, environmental sustainability, food systems, biotechnology, and digital transformation.

This two-day National Seminar aims to bring together academicians, researchers, scientists, policymakers, and students to deliberate on recent advances, challenges, and future pathways where science and technology can contribute meaningfully to a developed and self-reliant India.

### Objectives: -

- To highlight emerging trends in science and technology relevant to national development
- To understand the role of life sciences in achieving sustainable growth
- To promote interdisciplinary research aligned with *Vikasit Bharat 2047*
- To encourage academic–research collaborations
- To provide a platform for young researchers and students

**Note :** *Nagda is a major industrial town, (dist-Ujjain) and well connected with Indian railways and exactly located on Delhi-Mumbai railway track. Nearest airport is Devi Ahilya Bai Holkar International airport, Indore which is only 120 Km away from Nagda.*

## Themes & Sub-Themes

- **Life Sciences & Biotechnology**
